

NOÉMI VASPÖRI

JUNIOR FRONTEND DEVELOPER

I am a motivated, persistent, and enthusiastic individual with a passion for continuous learning and personal growth. After gaining valuable experience in consulting, I am now excited to embark on a new career path in frontend development, where I can channel my love for problem-solving into creating intuitive and visually appealing user interfaces. Discovering the logic behind code, optimizing processes, and bringing designs to life through coding are some of the most exciting aspects of this field for me.

EXPERIENCE

Sept 2020 – Dec 2023

IT consulting intern Ernst & Young Consulting

- Developed and maintained project documents, proposals, and client-facing communication materials, focusing on clear design and user-friendly formatting.
 - Collaborated with clients and senior team members, understanding their needs from project initiation to completion.
 - Assisted in IT transformation projects, providing technical support and learning about digital tools and platforms.
 - Executed project assistant tasks, ensuring smooth operations and addressing technical issues when needed.
 - Performed market research, data collection, and data mining to support strategic decisions, presenting data in a clear and actionable format.
 - Created and maintained detailed Excel spreadsheets and presentations with a focus on data visualization.
-

CERTIFICATES
